

## **CCPS Project Plan Facilities Plan**

### **23. Introduction**

This section identifies facilities required for the CCPS Project, and presents the plans for acquiring, installing, operating, and maintaining same.

#### **23.1 Facilities Requirements**

There will be an office building in West Long Branch. There needs to be a computer for every member on the team with the most up to date version of windows. These computers must also have the necessary applications to run and test the project.

#### **23.2 Facilities to be Acquired**

There are no facilities to be required.

#### **23.3 Funding**

Funding for the facilities will be included in the Project Budget plan, Section 11, see the budget plan for further information.

#### **23.4 Ordering**

Before the purchases are made they will be approved by MSDS.

#### **23.5 Installation**

MSDS will make sure that the necessary facilities are installed.

#### **23.6 Operations**

The people working on the project will operate the features.

#### **23.7 Maintenance**

MSDS is responsible for maintaining all of the facilities.

#### **23.8 Training**

We will train the employees based until they are fully capable of understanding how to use the products.

#### **23.9 Budget and Resources**

See the Budget and Resources Plan.
